The pages of this manual offer full and comprehensive instructions to guide you through the functions and features of the Gourmia Coffee Grinder. Inside this guide you will also find information on its modes of operation, complete step-by-step instructions for the operation, assembly, cleaning, and maintenance of your appliance.

Please read all safety instructions thoroughly to ensure safe usage at all times.

Thank you for your purchase! We sincerely hope you will enjoy this as well as all the many innovative products brought to you by our family at Gourmia.
IMPORTANT SAFEGUARDS

Before using the electrical appliance, the following basic precautions should always be followed including the following:

1. Read all instructions.

2. Before use check that the voltage of wall outlet correspond to the one shown on the rating plate.

3. Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions, or is dropped or damaged in any manner. Return appliance to the nearest authorized service facility for examination, repair or electrical or mechanical adjustment.

4. If the supply cord is damaged it must be replaced by the manufacturer or a authorized agent or a qualified technician in order to avoid a hazard.

5. Unplug from outlet when not in use, before putting on or taking off parts, and before cleaning.

6. Do not let cord hang over edge of table or hot surface.

7. Do not immerse the motorized base in liquid, or place in dishwasher. Damage to the unit will occur if submerged in liquid or filling the liquid into the container. Only the top cover may be immersed.

8. Close supervision is necessary when your appliance is being used near children or infirm persons.

9. Ensure fingers are kept well away from moving parts.

10. Do not remove cover until blade has completely stopped.

11. Do not attempt operation without the cover being in place.

12. The use of accessory not recommended by the manufacturer may cause injuries to persons.

13. Check grinding chamber for presence of foreign objects before using.

14. This appliance is not intended for used by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliances by a person responsible for their safety.

15. Children should be supervised to ensure that they do not play with the appliance.

16. Do not operate the appliance for other than its intended use.

17. Do not use outdoors.

KNOW YOUR COFFEE GRINDER

- Bean Hopper Lid
- Bean Hopper
- Grinder Start / Stop Button
- Grinding Timer Dial
- Coffee Powder Outlet
- Ground Coffee Container Lid
- Container Holder
- Ground Coffee Container
- Bean Hopper Holder
- Bean Hopper Release Button
- Grinder Control Dial
- Coffee Grinder Body
- Grinder Head
Before Using The Coffee Grinder For The First Time

1. Carefully unpack your coffee grinder and remove all packing materials.
2. Remove any dust that may have accumulated during packaging.
3. It is advisable to first wash all removeable parts: the Bean Hopper, Bean Hopper Lid, Ground Coffee Container Lid And Ground Coffee Container with warm soapy water and soft cloth. Rinse and dry thoroughly.
4. To detach the Bean Hopper press down the Bean Hopper Release Button and simultaneously turn the bean hopper counter-clockwise.
5. After use, rinse the Bean Hopper, Bean Hopper Lid, Ground Coffee Container Lid And Ground Coffee Container with water and then dry thoroughly.

CAUTION: Never immerse the grinder body in water for cleaning.

Using Your Coffee Grinder

1. Place the coffee grinder on a flat surface.
2. Check to see if the Grinder Head is in position inside the Bean Hopper Holder. If it has been remove simply take the Grinder Head by its handle, allign the groove on the Grinding Wheel with the tab in the grinding chamber. Rotate the Grinding Wheel clockwise until it locks into position.
3. Attach the Bean Hopper to the Bean Hopper Holder:
   To attach the Bean Hopper, allign the tab on the bottom of the Bean Hopper to the groove on the bean hopper holder and then turn the Bean Hopper clockwise until it locks into position.
4. To disassemble, press down the Bean Hopper Release Button and simultaneously turn the bean hopper counter-clockwise to remove the Bean Hopper from Bean Hopper Holder. NOTE: The Bean Hopper is equipped with a microswitch to ensure that it was assembled correctly, or the appliance will not work.

5. Pour appropriate amount of coffee beans into the bean hopper. Do not fill the hopper with more than 350g.

NOTE: If you run the appliance without coffee beans, the appliance will stop working after about 5 minutes. The appliance must rest for 30 minutes if it is operated for 5 minutes at a time.

6. Close the bean hopper lid.

7. Slide the Ground Coffee Container (with lid) in position (as shown above) on the Container Holder. Make sure the opening on the Ground Coffee Container aligns with the Coffee Powder Outlet.

8. The Grinder Control Dial enables you to select the texture of your ground coffee. Select from 1 for a very fine grind, up to 15 for a coarse grind. Note: When dialing down to a finer grain, the unit will only allow a maximum of 5 steps at a time. After every 5 steps start and stop the grinder for a few moments and then continue dialing down.

9. The amount of coffee dispensed is determined by the Grinding Timer Dial. Refer to the handy table on the opposite page to select your desired grinding time. When selected, the indicator of your selected grinding time will light at 100% brightness.
The first indicator lights at 100% brightness (S) (Default setting)

The second indicator lights at 100% brightness (S)

The third indicator lights at 100% brightness (S)

The fourth indicator lights at 100% brightness (S)

The fifth indicator lights at 100% brightness (S)

The sixth indicator lights at 100% brightness (S)

If you don't adjust the grinding time, the appliance will work under the default grinding time.

10. Connect the appliance to the power source. The first indicator (the default grinding time setting) will light up at 100% brightness while the other indicators and the indicator of Start/Stop button light up at 50% brightness. Select your desired grinding time based on your needs. Press the Start/Stop button. The appliance will begin to grind your coffee beans and after a while, the coffee powder will dispense the ground coffees from the coffee powder outlet into the Ground Coffee Container. The indicator Start/Stop button keeps blinking during grinding process.

NOTE: The appliance will enter into a sleep state if no operation is selected within 90 seconds of it being plugged in.

11. When the desired grinding time has been reached, the coffee grinder will stop working automatically and go back to standby mode, at that time, the first indicator (the default grinding time setting) lights at 100% brightness while the other indicators and the indicator of Start/Stop button light at 50% brightness.

NOTE: The maximum amount of ground coffee in container is 155g.

12. Remove the ground coffee container from its holder, remove lid and pour out the ground coffee.

13. Unplug the appliance.

NOTE:
The appliance must rest for 30 minutes if operated for 5 minutes continuously. It is suggested that you operate this appliance for less than 90 seconds at a time with a minimum 90 seconds rest time between cycles.

You may stop the appliance from running at any time during the grinding process, by pressing the Start/Stop button.
CLEANING AND MAINTENANCE

CAUTION: Make sure to unplug this appliance and let it cool down completely before cleaning. To protect against electrical shock, do not immerse cord, plug or the appliance body in water or liquid. After each use, always make sure to first remove the plug from wall outlet.

1. Disassemble the bean hopper by following the operation mentioned above (page 8), and then rinse the bean hopper, bean hopper lid, ground coffee container and ground coffee container lid with warm soapy water, and dry them thoroughly.

2. Lift the handle of the Grinding Wheel and rotate it counter-clockwise to remove it from its base. Clean the grinding blades with a brush, rinse it thoroughly with warm water and then dry thoroughly. To replace the grinding wheel back in position, see page 6 #2.
   NOTE: Use extreme caution while handling and cleaning the Grinding Wheel as the grinding blades are sharp.

3. Wipe the body with wet cloth and then dry it completely.

4. When not in use, store appliance in a secure, dry and cool place.
Coarse ground coffee is generally used for percolators and coffee urns.

Medium ground coffee is used for drip coffee makers and steam-type espresso machines.

Fine ground coffee is used for espresso machines with an electric pump.

| 1 | Coarse ground coffee is generally used for percolators and coffee urns. |
| 2 | For the freshest, most flavorful coffee, grind only enough for the pot you are making. Coffee beans keep up to 2 months in the freezer in an airtight container and can be ground while still frozen. Coffee grounds left in your grinder can become stale and affect the flavor of freshly ground coffee. Be sure to clean grinding chamber, blades and grinding wheel after each use. |
| 3 | This grinder can only grind dry, brittle foods. It will not grind anything moist, extremely hard or gummy, such as whole ginger, chocolate, sesame seeds or oily spices such as cinnamon, cloves or nutmeg. Do not grind peanuts or grains such as wheat, rice, barley, or dried corn. Attempting to grind any of these foods may damage the unit. Never use it to chop ice cubes. |
| 4 | Freshly ground peppercorns have a strong aroma and taste that may affect the flavor of coffee beans ground later. You may want to purchase a separate grinder if you plan to grind a lot of peppercorns. |
WARRANTY & SERVICE

This Limited Warranty is for one full year from the date of purchase. It is applicable to the original purchaser only and is not transferable to a third party user. Repair or replacement of defective parts is solely at the seller’s discretion. In the event that repair isn’t possible, the seller will replace the product/part. If product repair/replacement won’t suffice, the seller has the option of refunding the cash value of the product or component returned.

Product defects not covered under the Warranty provisions include normal wear and damage incurred from use or accidental negligence, misuse of instruction specifications or repair by unauthorized parties. The manufacturing company is not liable for any incidental or consequential damages incurred by such circumstances.
