SAFETY FIRST

IMPORTANT SAFEGUARDS

When operating this electric appliance, basic safety instructions should always be followed. Refer to the following for these instructions

1. READ ALL SAFETY & USAGE INSTRUCTIONS BEFORE USING.
2. Do not use appliance on wet or hot surfaces, or near a heat source.
3. To protect against electric shock, do not immerse any part of appliance, power cord, or plug in water or other liquid. Unplug from outlet when not in use and before cleaning.
4. To disconnect, unplug power cord from electrical outlet. Do not disconnect by pulling on cord.
5. Do not operate appliance with a damaged power cord or plug. Do not operate appliance if it malfunctions or is in any way damaged. For details, contact Consumer Services.
6. Use appliance only for its intended use.
7. Closely supervise children when using any electrical appliance. Do not allow appliance to be used as a toy.
8. This appliance has a polarized plug (one blade is wider than the other). To reduce risk of electrical shock, this plug is intended to fit in a polarized outlet only one way. If plug does not fit fully in the outlet, reverse plug. If it still does not fit, contact a qualified electrician. Do not modify plug in any way.
9. Caution: A short power cord is provided to reduce risks from entanglement or tripping over a longer cord. An extension cord may be used when marked electrical rating is no less than electrical rating of this appliance. All cords should not drape over counter or tabletop where cords can be tripped over or pulled on unintentionally, especially by children.
10. Do not place on or near a hot gas or electric burner, or heated oven. Extreme caution must be used when moving products containing hot liquids.
11. For Household Use Only.

SAVE THESE INSTRUCTIONS

FOR HOUSEHOLD USE ONLY

Electrical 3-conductor Cord Set: Appliance equipped with a 3-conductor cord set that has a 3 prong grounding-type plug. It should be properly connected to a grounding-type outlet. The plug is designed to fit ONLY a 3-grounding outlet unit, and as such, the grounding prong should never be removed. If needed, purchase a 2-prong adapter and ground it to the outlet. Consult a qualified electrician if in doubt. Do not use an adapter unless you are confident it is grounded. Do not modify this plug. If the plug does not fit the outlet securely, call a qualified electrician for assistance.
Before Using for the First Time
1. Remove all packaging from the Milk Frother and its power base.
2. Position the power base on a flat, heat-resistant surface, as close to an electrical outlet as possible. Make sure the power base is unplugged.
3. Remove the Milk Frother from its power base and take off the lid.
4. Read the rating in the base of the unit to make sure the power of the unit complies with your local civil electricity.
5. Use a cup to fill the non-stick pot with water up to the lower MAX line.
6. Gently position the pot over the electrical connector on the power base.
7. To avoid spillage, make sure the lid is on before turning the Milk Frother ON.
8. Plug the power cord into the electrical outlet, it will beep once.
9. Press the ON/OFF button quickly. The indicator will illuminate in red and the Milk Frother starts to work in heating and frothing mode.
10. When the water has warmed up, the Milk Frother will turn OFF automatically and the power light will turn off. It will beep twice.
11. Empty the water and the unit is ready to work with milk.

CAUTION: Always remove the Milk Frother’s pot from its base when pouring.
Using the milk frother

<table>
<thead>
<tr>

</tbody>
</table>

**STEP 1**

**STEP 2**

**STEP 3**

1. Choose the appropriate whisk and insert it on the whisk head inside the pot. (see the table left for reference).
2. Pour milk into the pot according to the maximum & minimum markings. (See the max capacity for each whisk type left for reference), place the pot on power base. Place the lid securely on the pot.
3. Choose the mode you want to make with the milk.

**A. To make Cold, Frothed Milk:**

Make sure you have inserted the whisk (with wire spring) and ensure the pot is filled with milk up to the Lower MAX level (150ml) or at least filled to MIN mark. Check that the lid is securely in place then press and hold the ON/OFF button for 3 seconds until the blue light turns on to start frothing. Once the frothing process is complete, the blue light will turn off automatically and the frothed milk is ready.

**B. To make hot, Frothed Milk:**

Make sure you have inserted the whisk (without the wire spring) and ensure the pot is filled with milk up to the Lower MAX level (150 ml) or at least filled to MIN mark. Check that the lid is securely in place and press the ON/OFF button briefly. The red light turns on to start frothing. Once the frothing process is complete the red light will turn off automatically and the hot frothed milk is ready.

**C. To make Hot Milk:**

Make sure you have inserted the whisk (without the wire spring) and ensure the pot is filled with milk up to the upper MAX Level (300ml Max) or at least filled to MIN mark. Check that the lid is securely in place and press the ON/OFF button twice briefly and you will hear 2 beep sound. The red light turns on to start heating milk. Once the heating process is complete the red light will turn off automatically and the hot milk is ready.
CLEANING AND MAINTENANCE

Remove the plug from the power before cleaning. Take out the silicon ring. Never immerse the Milk Frother or power base into water.

1. THE POT: Clean immediately after each use. Flush and clean the inner walls with warm soapy water and a non-abrasive cloth. Then wipe dry with a soft cloth.

2. THE LID: Separate the lid and the silicon ring. Wash with warm soapy water.

3. THE BODY: Clean with a soft cloth. Never use sharp cleaning agents, hard nylon brush or metal brush to avoid scratches on the stainless steel surface! Never clean with metal objects and never use abrasives.

4. THE WHISKS: Remove and wash with warm soapy water. Dry and store in a safe place. Do not put in the dishwasher.

5. Take out the spiral whisk or paddle. Use a small brush to clean areas around the motor, wipe clean and dry thoroughly.

6. Use sponge or non metal soft brush to clean the inside and outside of the Frother, then wipe dry with a soft cloth.

7. When cleaning the Frother, never immerse it in water. There are electronic components in the body that will be damaged.

8. NOT dishwasher safe.

SERVING SUGGESTIONS

Here is a selection of quick and easy drinks you can make using the frother.

WITH FROTHED MILK

Cappuccino
1/3 Espresso
Add 2/3 frothed milk
Top with cocoa powder.

Latte Macchiato
Pour frothed milk in a tall glass
Add espresso carefully along rim of the glass.

Instant Frothy Coffee
Make instant coffee
Add frothed milk.

WITH HOT MILK

Caffe Latte
1/3 Espresso shot
Add 2/3 heated milk and stir.

Hot Chocolate
Pour heated milk in to a large mug
Add chocolate powder and stir to mix.

Instant Milky Coffee
Place instant coffee granules in a cup
Add hot milk and stir to mix.

CLEANING THE MILK FROTHER

Here are some handy hints to help you get the most out of your frother.

• Always use your frother first to froth or heat your milk. While it is working prepare your coffee or hot chocolate and serve immediately.

• Use whole milk (fat content >3.0%) for best results.

• Cold milk can be frothed with this frother.

• Milk heats to approximately 65+/-5°C. This is the ideal temperature to ensure the best flavor of your coffee and it will not be too hot to drink.

• Keep the whisks in a safe place. They are small and can easily be lost.

• After frothing or heating allow 2 minutes for the thermostat to reset and the frother to be ready for use again. To shorten this time, rinse with cool water and wipe dry after each use.

• The frother is designed to heat and froth milk only. Do not put coffee grounds, or chocolate powder or other similar consistencies into the frother. Clean and dry after using.

• Use whole milk (fat content >3.0%) for best results.

• Cold milk can be frothed with this frother.

• Milk heats to approximately 65+/-5°C. This is the ideal temperature to ensure the best flavor of your coffee and it will not be too hot to drink.

WARRANTY & SERVICE

This Limited Warranty is for one full year from the date of purchase. It is applicable to the original purchaser only and is not transferable to a third party user. Repair or replacement of defective parts is solely at the seller’s discretion. In the event that repair isn’t possible, the seller will replace the product/part. If product repair/replacement won’t suffice, the seller has the option of refunding the cash value of the product or component returned.

Product defects not covered under the Warranty provisions include normal wear and damage incurred from use or accidental negligence, misuse of instruction specifications or repair by unauthorized parties. The manufacturing company is not liable for any incidental or consequential damages incurred by such circumstances.
